solutions

keeping work clean and safe underfoot

Ensign Services' comprehensive range of mats and floorcare accessories are engineered to meet the demands of busy public, commercial, institutional and industrial environments. Ideal for high traffic and other tough treatment areas, our mats will minimise the effects of everyday wear and tear and help you create and maintain a clean workplace.

managed floor care solutions

First impressions count. A clean work environment makes a powerful statement about your business. Ensign Services provide rental, laundering and ongoing maintenance of floor mats to help you maintain a professional and safe work environment every day.

experience matters

For over 75 years, Australian owned Ensign Services has led the way in the provision of innovative floor care solutions, promoting cleaner, safer workplaces Australia wide.

quality counts

Ensign Services uphold Total Quality Management principles and our operations are accredited to the national standard AS/NZS ISO 9001:2000.

the right mat

Ensign Services can help match the right mat to those locations and traffic points that need to be covered. The right type and size of mat will increase hygiene, safety and cleanliness for your staff, customers and visitors.

Ensign Services' mats are constructed to combat heavy soiling in high traffic areas; our launderable mats remove up to 80% of the solids and moisture that make their way into your workplace.

safety foremost

When used correctly, mats support and promote safety in your workplace. They provide high quality dust, grit and moisture control that helps minimise the number of slips and falls caused by tracked in soil and debris. Mats are a simple yet effective way to reinforce the importance of safety at work.

specialty mats

Ensign Services offer specialised mats that not only trap dirt and other contaminants but also attack mildew. These mats minimise the risk of germ growth and transfer, making your premises a safer and more hygienic place to work.

Other specialty mats include static dissipative mats which contain conductive filaments that absorb and dissipate static electricity build up around sensitive electronic equipment.

Installed at key locations, a branded mat will distinctly reinforce your unique corporate image with customers, visitors and staff. Your company logo or a message of your choice can be customised to meet your mat specifications.

... but not forgetting comfort

If your staff spend a lot of time on their feet, anti-fatigue mats can make them more comfortable. Ensign Services' anti-fatigue mats are a softer alternative to the floor, providing relief from back, leg and foot stress.

great value, great clean

Ensign Services' comprehensive floor care solutions are the easiest way to keep your workplace looking its best. Effective mat installations keep your overall cleaning costs down. There's no upfront outlay and our inclusive rental service means mats are replaced regularly to ensure they keep doing their job properly.

floor care accessories

Ensign Services also supply floor care accessories such as scissor mops, sweeping cloths, treated mops and hand dusters. Strong, hygienic and absorbent, they'll take on the challenge of controlling dust and soil in any environment.
